

English

How do I read the Toll Collect itemised journey list?

In addition to a toll statement, you can receive an itemised journey list with a detailed overview of all journeys billed for. You can see exactly how your individual toll amounts have been calculated in this way.

These instructions explain the itemised journey list. Numbers are assigned to the individual information fields, which will be explained point by point below.

Explanations on the itemised journey list

[Example of the itemised journey list · page 1](#)

- 1** **Mautaufstellung Nummer – Toll statement number**
The itemised journey list refers to this toll statement. The individual toll statements can be identified using this number. Please quote this number for any queries.
- 2** **D · B TC 1001 – Registration number**
The following journeys refer to this registration number.
- 3** **01.06.2025 bis 30.06.2025 – Time period**
The itemised journey list refers to this period.
- 4** **Parameter des Fahrzeuges – Parameters of the vehicle**
The parameters of the vehicle are shown here. Here you will find the emission class (SK), the fuel type and energy source (FE) as well as the CO₂ emission class (CO2).
- 5** **Datum – Date**
In this column you will find the date and time of each journey.
- 6** **Buchungsnummer – Log-on number**
The log-on number of the respective journey is shown in this column.

- 7** **Art – Type**
This column shows the types of costs, e.g. tolls incurred, corrections, credit notes, cancellations and cancellation fees. Corrections are made if a toll has been processed manually due to a complaint. That is why they are not called tolls. This means that your billing remains comprehensible and transparent for you.
- 8** **Strecke: Auffahrt → über → Abfahrt / Beschreibung – Route: Entry point → via → exit point / Description**
In this column you will find details of the route travelled.
- 9** **Kostenstelle – Cost center**
This column contains the cost center, if you have entered one. If you have not entered a cost center, the column remains empty.
- 10** **Tarif – Tariff**
In this column you can see the toll rate that has been applied for this journey. The toll rate designation contains information for determining the toll amount. The relevant valid version of the toll rate and route-model can be seen from the first 5 characters.
- 11** **AK – Axle class**
In this column you will find the axle class of the vehicle. The axle class is a tariff feature.

- 12** **GK – Weight class**
In this column you will find the weight class of the vehicle. The weight class is a tariff feature.
- 13** **Verfahren – Method**
This column shows which collection method you used to enter the toll. AV stands for the automatic collection method: Toll collection via the on-board unit, TN stands for the semi-automatic collection method: Toll collection via the Toll Now app and MV stands for the manual method: Toll collection via the website or the Toll Collect app.
- 14** **Strecke – Route**
This column shows the distance travelled. The number may deviate from that stated by the speedometer of the truck, because the satellite-supported toll collection is based on fixed route sections and not the individual kilometres travelled.
- 15** **Betrag – Amount**
This column shows the toll amount to be paid per journey in euros.
- 16** **Summe – Total**
This line shows the total amount for the specific vehicle in the specified billing period.

Explanations on the itemised journey list

17 ***Datum – Date***
This date indicates when your itemised journey list was created.

18 ***Kundennummer – Customer number***
You are registered with Toll Collect under this number. Please have this number to hand for all enquiries and quote it in all correspondence.

[Example of the itemised journey list · page 3](#)

19 ***Glossar – Glossary***
You will find explanations of all abbreviations used in the glossary.

20 ***Zusammensetzung der Mauttarife und Tariftabellen – Composition of toll tariffs and tariff tables***
Here you will find explanations of the toll tariffs and a link to the current tariff table.
