

Certificate

for the supply with „Komfortstrom Klima Natur“ for the year 2017 to

Toll Collect GmbH
Linkstraße 4
10875 Berlin

The green electricity comes entirely from environmentally friendly hydropower plants and is fed into the European power grid.

For a clear identification of the generation plants, the green electricity is documented by certificates of origin that comply with the EU directive 2009/28/EG.

The green electricity product „Klima Natur“ is certified based on VdTÜV-Basisrichtlinie „Ökostromprodukte“ Merkblatt 1304 from the TÜV NORD CERT GmbH and undergoes an annual audit.
